

Adventure Park Construction & Installation Technician

VEVRCA | Job Opening

At VEVRCa, we are expanding our team and are looking for a new colleague to help manufacture and install adventure parks and zipline parks.

We are looking for a practical and technically skilled person who enjoys working with wood and tools and is comfortable with varied work, combining workshop tasks with field work abroad.

Job Description

The position combines work in the workshop with work on site.

Workshop work includes:

- preparing and processing components for adventure parks,
- cutting, drilling, sanding and assembling components,
- preparing materials and equipment for individual projects,
- other practical tasks related to preparing for the construction of adventure parks.

On-site work includes:

- assisting with the construction of adventure and high-ropes parks,
- installing structures, platforms and adventure elements,
- working with wood, ropes, steel cables and other equipment,
- working at height,
- multi-day field assignments in Slovenia and abroad.

What We Expect

- good manual and technical skills,
- experience using hand and power tools,
- an interest in woodworking and practical hands-on work,
- reliability, responsibility and the ability to work as part of a team,
- willingness to work at height,
- willingness to travel and work on multi-day assignments abroad,
- a Category B driving licence,
- basic knowledge of English.

Experience in carpentry, timber construction, installation, woodworking or similar fields is an advantage, but not a requirement. What matters most to us is a practical mindset, motivation and a willingness to learn. We will teach you the specific skills required for the manufacture and construction of adventure parks.

What We Offer

- varied work where no two projects are exactly alike,
- the opportunity to work on interesting projects in Slovenia and abroad,
- specialised training and experience in adventure park construction,
- the possibility of long-term cooperation,
- **employment with VEVRCa d.o.o. or cooperation as a self-employed contractor**, depending on the agreement.

Application

If you enjoy practical, varied work and would like to help create unique adventure parks, we would be happy to hear from you.

Send us a short description of your previous experience or your CV to info@vevrca.si.
